Technical Bulletin

New Core Milling ERP Product Codes & Naming Explanation

This technical bulletin covers all Core Milling Business Units that have transitioned to Microsoft Dynamics AX ERP system as follows:

- Clifton, NJ – **After October 1st, 2019**
- Mooresville, NC – **After June 3rd, 2019**
- Tolleson, AZ – **After March 1, 2019**

Bay State Milling Company (BSMC) product have been renumbered and simplified to reduce the number of active SKU's. This also standardizes all item numbers and names across all BSMC locations. Product names may no longer state **Enriched, Unenriched, Bleached, or Bromated** in the name of the product.

Product names and numbers now have 4 parts:

1. Generic Name (Example: Blockbuster)
2. Product Number (Example: 32001)
3. Treatment Code (a.k.a. T-Code, example: T000)
 - a. T000 = No minor ingredients added
 - b. T001, T002, T003, etc. = Internal BSMC Code indicating minor ingredients added and the rate of application. Can include any combination of the following: Enrichment, Enzymes, Bleach, Bromate, Ascorbic Acid, or Vital Wheat Gluten.

NOTE: All minor ingredients are declared on the product's ingredient statement.

4. Pallet Configuration (Example: W50)

Example:

1. Generic Name:	BLOCKBUSTER
2. Product number:	32001
3. T-Code:	T000
4. Pallet Configuration:	W50
Explanation: This product, Blockbuster 32001 T000 W50 , has NO minor ingredients (T000) and is configured on a Wooden pallet with 50 bags (W50) .	

If there should be questions regarding this or any other technical matter, please contact your Sales Account Manager.

Sincerely,

Jennifer Robinson
