

Bay State Milling Job Description

Job Title: Quality Assurance Manager
Location: Platteville, CO
Department: Lab
Reports to: Plant Manager
FLSA Status: Exempt
Prepared by: Human Resources
Revised Date: 1/11/2022

SUMMARY

The position of Quality Assurance manager is responsible for all facets of the operation of the Quality Assurance Department. The duties expected include: accurate analysis of samples, recording of results and distribution of results to appropriate individuals, routine shipment of samples to outside laboratories for analyses not performed in house, monitoring product specifications and making changes in product specifications as needed, establishing wheat blends to meet specifications of flour to be produced. Overseeing functional operation of regulatory programs to assure plant compliance, these programs include HACCP, GMP's, Master Sanitation Schedules, AIB standards and FDA standards, monitoring effectiveness of recalls. Communicating with customers is a vital function performed by the Quality Assurance Manager, communications include timely submitting C.O.A.'s to the customer, answering customer questions and complaints.

The Quality Assurance Manager will have a QA Technician working under their direct supervision to help accomplish the above responsibilities.

The Quality Assurance Manager is an active member of the plant's management team. This position chairs the Plant Safety Committee, scheduling and conducting monthly meetings, and preparing minutes of the meetings. This position is also a member of the plant's Food Safety Committee, taking an active role in helping suggest and implement food safety programs and procedures.

QUALIFICATIONS *To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.*

- Possess a B.S. degree from a four-year college or university in chemistry or cereal science, or have 3 years experience in a similar position.
- Knowledgeable of computer operations, able to use Word, Excel, DBC and e-mail.
- Capable of performing basic math functions, with or without the aid of a calculator.
- Capable of following and communicating written and verbal instructions in English.

- Capable of writing and orally presenting reports to all levels of management within the Corporation.
- Required to be available, on call, at all times of the day or night, seven days a week in the event of an emergency where managerial oversight is required.
- Possess good people skills to train and lead employees under direct supervision.
- Needs to be an independent worker with self-initiative to carry out job functions.

PHYSICAL DEMANDS *The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.*
